

Toewgmo

Utwór

Suck my spit, and give me a kiss
Let all my demons just swim to your lips
I know misogynistically,
You know, statistically that you will always get caught

With the words that will flow from my mouth
There is blood in the sand, in the clouds
And I know that I'm not a nice guy,
I hurt people's feelings, I guess I should die
But my body says hurt myself, and my heart says to harm myself
And my wife said to love myself, so what am I to do, myself?

Fuck you, mom, and fuck you, dad
Fuck the rules you always had
Fuck the way I used to smile

High school life, go away, adult life, here to stay
Older now, got some kids
Love you all, die for this

I've got anger to talk about,
I've got problems that I never figured out
I've seen people die when I'm mad
I'd like to say sorry, but I'm just too sad
I've got anger to talk about,
I've got problems that I never figured out
I've seen people die when I'm mad
I'd like to say sorry, but I'm just too sad

How did I get like this?
So afraid of everything
How did I get like this?
So afraid of everything

Can you see me son
As I float away
I can see you dad
I can see you dad
I can see you dad
I can see you dad
